

## ABOUT THE PLANS

**Transformative plans support the implementation of Richmond Rising projects.**

### Community Engagement

A 15-person Youth Fellows Program will help facilitate resident participation. A Collaborative Stakeholder Committee meeting will be hosted monthly.

### Displacement Avoidance

New policies and more City services will ensure residents and business owners can stay in Richmond.

### Workforce Development and Economic Opportunity

Residents will have access to training in emerging careers like clean energy.

### Indicator Tracking

The process and outcomes of Richmond Rising will be evaluated.

### Grantee

The City of Richmond has two limited term positions to support the implementation of the grant.

## ABOUT THE GRANT

**Richmond Rising** is supported by the California Strategic Growth Council's Transformative Climate Communities Program (TCC).

TCC was created to fund the development and implementation of **neighborhood-level transformative climate community plans** that include multiple coordinated greenhouse gas emissions reduction projects that provide local economic, environmental and health benefits to disadvantaged communities.

The California Strategic Growth Council is a council made up of seven state agencies and three public members with the mission to build **healthy, thriving, and resilient communities** for all. Since 2008, SGC has invested over \$2 billion in projects that strengthen communities and address climate change.

**Grant Term:** September 2023 to August 2028

**www.RichmondRisingCA.org**

**Healthy • Connected • Climate Strong**

Led by a coalition of local organizations, **Richmond Rising** is implementing projects envisioned by the community.

**Active transportation, like walking, biking, and using public transit**

**Resilient homes and landscapes by reducing energy and water use**

**Health and well-being through gardens, trees, and healthy food**

Funded by a \$35 million grant to fight climate change by reducing greenhouse gas emissions and to increase community resilience, the projects will bring environmental, health, and economic benefits to the Iron Triangle, Santa Fe, and Coronado neighborhoods.

COUNCIL**

*Richmond Rising is supported by California Strategic Growth Council's Transformative Climate Communities Program.*

## PROJECT AREA MAP

Richmond Rising projects were developed in partnership with community during public meetings, at events and programs held by partners, and address needs and priorities expressed in City-adopted planning documents.

**Neighborhood Complete Streets** will create new bike lanes, pedestrian pathways, and strategies to slow car traffic.

**Richmond Wellness Trail Phase 2** will create a route from the BART/Amtrak station to the new Ferry terminal.

**E-bike Lending Library** will provide more bikes, provide trainings, and offer a free road-to-ownership program.

**Resilient Homes** will install solar panels and efficient appliances in homes, creating cost savings and improving health outcomes.

**Basins of Relations** will install greywater systems and offer green career training.

**Bosque del Barrio** will plant 1,000 new trees on streets and at homes in the project area.

**ADA Accessible Garden** will design and build a garden to increase access to healthy foods for all users, including seniors and individuals with mobility challenges.

**Orchard for All** will plant more fruit trees and provide jobs and free, healthy food.

**Veggie RX** will prescribe fresh produce, offer healthy eating classes, and host community health conversations and education.

**E-bike Share** will expand Richmond's e-bike share program, adding 70 bikes across 5 access points and offering free memberships.

## ABOUT THE PARTNERS

More than six partner organizations, countless community members, and several supporting organizations are committed to improving the public, environmental, and economic health of the Richmond community. The project partners have been active in Richmond and this project area for decades, organizing with residents and improving climate resilience and quality of life through projects big and small.
